

Envelopes in 50M lots

Single orders for fifty thousand envelopes—to be printed and delivered in short order—are quite a common thing at our place.

Often the stock used is government stamped stuff—and you know shortage is quite an important item there.

But we get them out—on time—and economically, too. It's our way.

SNAP SHOTS AT HOME NEWS

The Methodist Epworth League institute will be held at Baldwin August 16-22. George E. Dougherty of Topeka is secretary of the institute board.

Nick Klug and Margaret Hefner, young folks of North Topeka, have been granted a marriage license by Judge Hugh MacFarland in the probate court.

A comfort station will be built at Gage park this summer. N. P. Neilson is drawing the plans for the building, which will be similar to the one at Garfield park.

United States District Attorney Fred Robertson and L. S. Harvey are in St. Paul, Minn., representing the government in the appeal case of Don A. and L. D. W. Moun Day.

A second number of the Abdallah Hot Sands will be issued Thursday to advertise the Shriners' carnival. There were 5,000 of the number that appeared on the streets Monday.

Robert Stone, speaker in the last house of representatives, will speak next week at the Abstracters' association convention in Salina. His subject will be, "Homesteads and Blanket Judgment Liens."

Fifteen students from the Agricultural college at Manhattan inspected the Doran farm here. They are all from the department of dairying and are in charge of Professor Fitch of that department.

Mayor J. E. House has signed contracts and bonds for the extension of water mains on Duane street from Roosevelt to Orchard street and another on Lindenwood avenue from Eighth to Ninth street.

W. D. McKinstry, a Topeka Christian Scientist, and his son Emmans left Monday for Boston where he will attend a meeting of committees on publication of the First Church of Christ, Scientist, in Boston.

The city commission is in favor of a new city hall. A man is always more particular about his private office than that of his subordinates. Hence—and for some time hence—the question of a new city hall will exist only in a state of coma.

Mr. Ralph Emerson, who came to Topeka a few months ago to become organist at the Hip and who has been at the Novelty until last week, resigned his position Friday and will go back to Fort Madison, where he will play until September 1 when he will return to his position at the Novelty.

W. G. Tandy, city commissioner of streets, said today that plans and specifications for steel and concrete bridges over Shunganunga creek on Kansas avenue and also on Lincoln street are nearing completion and that bids for the construction of the two bridges probably will be called for within three weeks.

Tomorrow night the school child who holds the lucky number in the drawing at the carnival at the fair grounds, will receive a camera offered by George Stansfield. Thursday night a \$25 bicycle offered by the Shawnee Cycle company will be given. The only requirement is that the holder of the number be on the grounds.

Less than 2 per cent of the Topeka school children who have been examined by Topeka teachers, under the direction of Prof. Raymond Schwieger of the University of Kansas, have been found to be deficient. The Binet-Simon test is used for examining the pupils. Professor Schwieger holds an examination every Saturday morning at the Harrison school building.

One hundred and forty-two dollars toward completing the fund necessary to give Topeka supervised playgrounds was reported by two committees to W. P. MacLean, secretary of the playgrounds association Monday night. One of the committees, the Quincy school children, raised \$62, and the Children's Conservation league, raised \$80. An effort is being made to raise \$1,000.

The present municipal cooler is a joke. Had the ark landed near Topeka the dove sent out by Noah might have returned with one of the ark letters over the front entrance instead of an olive branch, and the building would have become as famous as the tower of Babel. In medieval times a feudal lord would have used the building for a summer cottage. But today the street railway company wouldn't use it for a transfer station.

H. S. Sorrels, scout master with the Boy Scout patrol of five boys who are walking from St. Paul, Minn., to San Francisco, will not arrive in Topeka today. Heavy rains have caused the party to drop behind its schedule. "Mud bound at Zarah; will not be in Topeka before Thursday," reads a postcard from Sorrels to John Henry Pazel, scout master of the Topeka Boy Scouts. Zarah is on the Santa Fe Trail just a few miles west of Kansas City.

Many new features in the Washburn Annual have caused surprise this year among students and people interested in the college. The name has been changed from the "Kaw" to the "Ichebodian." The book was distributed Monday and every one of the 475 copies was sold in advance. A special de luxe edition of 75 copies was gotten out. These are bound in leather and have the name in large gold letters on the front cover. Frank Peers is editor-in-chief.

The board of county commissioners is now closing up the tedious work of adjusting complaints against personal property assessments. A few of them to which objection has been pointed out by the assessors are being raised. A few such cases have followed where thirty owners have reported their eight-cylinder touring cars at the price of Ford roadsters. The commissioners will sit as a board of equalization until May 27. Objections to assessments should be registered by taxpayers before that time.

The following births were reported at the office of the city clerk today: Frank W. Griggs and wife, 925 Fillmore street, May 24, boy; Herbert Carl Youngbow and wife, 1114 College avenue, May 19, boy; William E. Bacon and wife, 1707 Park avenue, May 11, girl; Robert E. Johnston and wife, St. Marys, Kan., May 22, girl; Floy Lester Conaway and wife, 1425 Central avenue, May 21, girl; William McManus and wife, 405 Lane street, May 24, boy; Edward Clare Krebs and wife, Cottonwood Falls, May 22, boy.

As a result of a conference between W. L. Porter, city commissioner of parks, and a committee appointed by the South Side Improvement club, Porter will recommend to the city commissioners that city water service be extended to Lakewood park. Out of park funds a bridge also will be built over the small creek running through the park. The members of the club will request the county commissioners to build a road from the present macadam county road to the middle of the park. The size of the water pipe to the park will be one inch. It is to supply water for drinking purposes only.

Read State Journal Wants.

TO CLOSE TOMORROW

Commencement Exercises of Topeka Industrial Institute.

The commencement exercises of Topeka Industrial and Educational institute have been in progress since Friday and will close tomorrow. Beginning at 2 o'clock the following program will be rendered:

Two pianos (8 hands)—"Parade Review"—Engelmann; piano 1, Marion Carter; Opal Dorris; piano 2, Mabel Fuller, Nellie Payne.

Ladies' Glee club, "Greeting to Spring"—Strauss.

Salutatory—"The Efficiency of the Negro Woman," Izma Simington, Atchison, Kansas.

"The Practical Value of Manual Training," Bessie Greene, Salina, Kan. Quartet, "For a Dream's Sake"—Cowen-Parks, Misses Simington, Holman, Messrs. Malone, Campbell.

"The Demands of Today," Arthur H. Pace, Nicodemus, Kan. Valedictory, "The Progress of Negro Schools," Bessie G. Frame, Wichita, Kansas.

Jubilee song, "Free at Last"—Selected. Commencement address, Rev. L. G. Jordan, secretary foreign mission board National Baptist convention.

Ladies' Glee club, "Home, Sweet Home"—Johnson.

Presentation of diplomas and certificates. Awarding of prizes. The various departments of the institute, academic, agricultural and industrial, have prepared special exhibits demonstrating the work that is being done throughout the school. The exhibits are especially interesting.

It must not all cemetery cars after 1:30 o'clock.

AT THE THEATERS.

At the Iris.

The versatile Elsie Janis in "Betty in Search of a Thrill" entertained three large audiences at the Iris last night. She has a remarkable personality, and her wholesome rendition of a playlet she wrote herself, is a thoroughly enjoyable performance. Tomorrow the bill will be "Bootie's Baby" and "The Man on the Case," two airy, amusing productions in one show.

At the Cozy.

Tonight will be the final opportunity to see the opening chapter of "The Diamond From the Sky," the new serial film which the Cozy theater has secured. The cast headed by Lottie Pickford is unusually well selected, and the picture fulfills its advance notices in every way.

At the Best.

Today and tomorrow the Best theater is showing a multiple reel feature—a Milano masterpiece by the Monopol Film Co. Its title is "In the Toils of the Devil," and it is a fitting sequel to the big "Dante's Inferno" feature shown some months ago. To the first 250 ladies visiting the Best this evening, the management will give as souvenirs large reproductions of well known paintings in colors.

Seeds, seedlings, hedge plants, shrubbery, etc., are furnished free to country schools in North Dakota by the State School of Forestry. In addition, the services of the state forester in planning and laying out school grounds are available without cost.
